Vocal & Music Discovery for Young Singers

Now offered in four locations Neighborhood Training Choirs enable access to PYC's exciting programs of choral education for young singers in first, second and third grades. During each 12-week sessions, singers learn age-appropriate vocal technique and music-reading skills, learn to sing with musicality, movement and expression! At the final class, the young singers have an opportunity to show-off their new vocal skills in an informal program for family and friends!

How to join a Neighborhood Training Choir

There are no auditions! Our only requirement is that the child be in first, second or third grade and love to sing!
