

Reintegration Reflection Prompts

These reflection prompts were mentioned in the November LLI presentation. They can be used in staff meetings to further and deepen discussion.

- Can you share the reason your identity matters in PreK-12 education?
- Is identity development possible when enacting reintegration strategies and routines in PreK-12 schools? How might you connect the identity, reintegration strategies, and routines to art, health, math, science, ELA, social studies, and other content areas?
- How would you like to see identity development applied in your learning environment to positively impact the school's current reintegration strategies and routines?
