Pittsburgh Westinghouse to Teach and Learn Remotely for the Remainder of the Week

PITTSBURGH, February 15, 2023 – Pittsburgh Westinghouse Academy 6-12 staff and students will continue to teach and learn remotely for the remainder of the week. The ordinarily vibrant and thriving school community is still reeling from yesterday's heartbreaking violence that injured four students. Students will log into Microsoft Teams to participate in live synchronous learning and instruction from home. Virtual Student Assistance and Employee Assistance Program support was available today and will remain open to anyone who needs it.
