BACKGROUND: The Board hired search consultant BWP & Associates in March 2022 to lead the national search to identify qualified candidates to fill the post of permanent Superintendent for the District. There were 29 applicants from 13 states and one other country who applied. The insights garnered from community outreach efforts as part of this process were utilized in the selection recruiting process. BWP submitted its final report to the Board in late June that included five finalists. The nine-member Board made the ultimate hiring decision for the next permanent Superintendent. The Board is expected to officially vote to appoint the new permanent Superintendent as part of its next Legislative Session at 6 p.m. on Wednesday, July 27, 2022.
