

The Pittsburgh Public Schools will implement a new four-tiered transportation plan for the 2023-2024 school year developed after listening to the voices of students and families related to high school start times. The plan will add a fourth transportation tier, changing the start time for high school students on Tier 1, 25 minutes, from 7:15 A.M. to 7:40 A.M. It also moves the start time for Tier 2 schools up five minutes, adds nine schools to an updated Tier 3 that adjusts their start times between 15 - 30 minutes, and shifts former Tier 3 schools to a new Tier 4 adding two schools to the already 12 with a 9:10 A.M. start time.

The new bell schedules also support the District's efforts to provide synchronous professional learning for school-based staff across grade bands, increasing opportunities for teachers to engage with their like-subject colleagues across schools.
