# PITTSBURGH LOCAL TASK FORCE ON THE RIGHT TO EDUCATION

The Pittsburgh Local Task Force on the Right to Education is a parent-majority organization that works collaboratively with administrators from Pittsburgh Public Schools and community agencies to improve and strengthen special education in the school district.

In addition, the Pittsburgh LTF is an information resource for families of Pittsburgh students who receive special education services in district schools, charter schools, or Approved Private Schools (APS)

## Our Work

- Provide an opportunity for parents/guardians to ask questions about special education law, services (IEP and 504) and policies.
- Provide information about special education resources.
- Improve, strengthen and expand educational services for students with disabilities.
- Serve as liaison and information resource for families.
- Regularly monitor and report on special education services offered by PPS, Charter Schools, and APS.
