## **Pittsburgh Obama Students Dismissed Early Due to Power Outage**

PITTSBURGH November 8, 2021 – A power outage has prompted the early dismissal of students who attend Pittsburgh Obama 6-12. The message below has been shared with families via the District's parent notification system.

*Good morning Obama Families.*

*This message is to alert you that Obama is currently without power. We understand from our local electrical provider that the power outage is due to a cable issue and it is expected to be out for the next four hours.*

*Due to a power outage, a decision had been made to dismiss all students early today. As of 10:30 AM student walkers and port authority riders will be dismissed in phases starting with high school students. All students, including students riding vans will be dismissed by 11.*

*We thank you for your patience as we manage the power outage impacting our school community.*
